
BIOGRAPHICAL SKETCH

NAME Joseph M. Zmuda eRA COMMONS USER NAME zmudaj	POSITION TITLE Associate Professor
---	---------------------------------------

EDUCATION/TRAINING			
INSTITUTION AND LOCATION	DEGREE	YEAR(s)	FIELD OF STUDY
University of Rhode Island, Kingston, RI	B.S.	1989	Nutrition
University of Rhode Island, Kingston, RI	M.S.	1991	Exercise Physiology
University of Pittsburgh, Pittsburgh, PA	M.P.H.	1996	Epidemiology
University of Pittsburgh, Pittsburgh, PA	Ph.D.	2000	Epidemiology

A. Personal Statement

Dr. Zmuda is an Associate Professor of Epidemiology and Human Genetics with Tenure at the University of Pittsburgh. Dr. Zmuda's research focuses on understanding the effects of aging, endocrine changes and genetics on body composition with a particular interest in bone and mineral metabolism. He and his colleagues have evaluated the contributions of hormones to body composition and bone loss among older men, the influence of body composition and medical/lifestyle factors on bone health, and race differences in body composition and bone health. He directs the Department's Molecular Epidemiology Laboratory which develops biomarker assays for epidemiologic studies including ELISA assays of endocrine function and DNA based tests of genetic susceptibility. He is the PI of the Tobago Bone Health Study and a current or past Investigator on several other large epidemiologic studies. Under his leadership, the Tobago research program has provided a rich resource for trainees: 6 MS MPH students, 19 PhD fellows, 6 post-doctoral scholars, and 3 Academic Career awards have utilized the Tobago research study.

Dr. Zmuda also has considerable experience in training junior investigators. He has served as mentor for 32 PhD and MS MPH students, 9 post-doctoral fellows including 4 K awardees, 5 undergraduate students, and serves or has served as faculty mentor on 5 NIH training grants. Several of his trainees are currently in tenured/tenure-track faculty positions at well-respected institutions. Most notably, he served as primary post-doctoral (F32-HL083641) and K Award (K01-DK083029) mentor and cultivated the career development of Dr. Iva Miljkovic who has established an independent research program on the epidemiology of diabetes and obesity utilizing the Tobago cohort. Dr. Miljkovic recently received her first NIH R01 (DK097084) to continue to her research on obesity and diabetes in the Tobago cohort study.

B. Positions and Honors**Positions and Employment**

- 1989 - 1992 Research Assistant, Division of Preventive Cardiology, The Miriam Hospital, Providence, RI
1992 - 1996 Research Specialist, Division of Preventive Cardiology, University of Pittsburgh, Pittsburgh, PA
1996-2000 Research Specialist V, Department of Epidemiology, Graduate School of Public Health, University of Pittsburgh, Pittsburgh, PA
2001-2003 Assistant Professor (non-tenure stream), Department of Epidemiology, Graduate School of Public Health, University of Pittsburgh, Pittsburgh, PA.
2003-2009 Assistant Professor (tenure stream), Department of Epidemiology, Graduate School of Public Health, University of Pittsburgh, Pittsburgh, PA.
2004-2011 Assistant Professor, Department of Human Genetics, Graduate School of Public Health, University of Pittsburgh, Pittsburgh, PA.
2010-present Associate Professor (with tenure), Department of Epidemiology, Graduate School of Public Health, University of Pittsburgh, Pittsburgh, PA.
2011-present Associate Professor, Department of Human Genetics, Graduate School of Public Health, University of Pittsburgh, Pittsburgh, PA.
-

Honors and Awards

US PHS Traineeship (1995-1996); National Osteoporosis Foundation Fellowship Award (1997); Judy S. Finkelstein Memorial Award (1998); American Federation for Aging Research Award (2001); Young Investigator Award, ASBMR (2003).

Service

2005	National Institute on Aging, Special Emphasis Review Panel, Member
2005	National Heart, Lung & Blood Institute, Special Emphasis Review Panel, Member
2006-2013	American Federation for Aging Research National Scientific Advisory Council, Member
2008-2014	National Institute on Aging, Special Emphasis Review Panel, Member
2008	National Institute of Arthritis and Musculoskeletal and Skin Diseases, Bone Biology and Diseases Roundtable
2009-2013	Neurological, Aging, & Musculoskeletal Epidemiology Study Section (NAME), AdHoc Reviewer
2010	National Institute on Aging, Program Project Grant Review
2010	National Institutes of Health, Director's Opportunity Special Emphasis Review Panel

D. Research Support

Ongoing Research Support

R01-AG033618 J. Zmuda (PI) 09/01/10-08/30/13 (no cost extension)
NIA

Wnt Genes and Skeletal Aging: From the Population to the Cell

This proposal examines genetic variation in Wnt pathway related genes and bone mineral density in older Caucasian and African Ancestry men. Functional studies of promising variants will be completed in osteoblastic cells *in vitro*.

Role: Principal Investigator

R01-AR049747-06 J. Zmuda (PI) 09/01/2010 - 08/31/2015
NIAMS

Epidemiology of Bone Loss in African Men

This proposal continues our Tobago Bone Health Study, a population-based study of bone mineral density in men of African ancestry aged 40-92 years. Men are recontacted for a second round of peripheral computed tomography exams of the radius and tibia, with an average of 5 years of follow-up. Bone density is remeasured to describe the rates and determinants of trabecular and cortical bone loss.

Role: Principal Investigator

U01 AR045654-10 J. Cauley (PI) 08/01/2006 - 07/31/2012 (no cost extension)
NIAMS

Osteoporotic Fractures in Men - MrOS Renewal - Pittsburgh

This is the renewal of a study to quantify the determinants of osteoporosis and fracture in elderly men.

Role: Co-Investigator

U01 AG023744-06 NIA	A. Newman (PI)	07/01/2010 - 06/30/2013 (no cost extension)
<i>Families of Cohort Survivors Over 90 - Study Center</i> Older adults aged 90+, their siblings and children of the index generation are phenotyped for important exceptional survival phenotypes. Genome wide association, linkage and whole exome sequencing will be completed to identify genetic determinants of longevity and successful aging related phenotypes. Role: Co-Investigator		
R01 HD056999		
NICHD	L. Bodnar (PI)	09/01/2008-08/31/2013 (no cost extension)
<i>Vitamin D: A Link to Racial Disparities in Birth Outcomes</i> This project examines the role of vitamin D levels and candidate genes in relationship to birth outcomes including preeclampsia and spontaneous preterm birth among racial/ethnic population subgroups. Role: Co-Investigator		
<u>Completed Research Support (selected)</u>		
N01-AG-6-2101 NIA	A, Newman (PI)	06/01/2004 - 11/15/2007
<i>Dynamics of Health, Aging, and Body Composition</i> This project examined the incidence of physical disability in relation to body composition and weight-related health conditions in healthier older persons. Role: Co-Investigator
